Re: Guelph General MRI

Dear Fred:

I would like to take this opportunity to express my appreciation to you and all the staff of Gibbs Wilson Contracting following the successful completion of the new MRI for our facility. Working with yourself and Mr. Kul Toor, and in particular, your supervisor Mr. Gary Smail has been a pleasure. Throughout this difficult project, your staff always exhibited the professional work ethics required in this type of facility, always being courteous and making adjustments when required to disruptions with the working department, and above all for following the Hospital policies & procedure.

From the onset, and throughout, Gibbs Wilson met or exceeded our expectations, particularly in regards to Infectious Control during construction. It was a refreshing experience to work with your firm for the first time, with staff that genuinely cares about our needs and work very diligently to meet those needs.

Please convey to Kul and Gary and the rest of your forces my appreciation for a job well done. I would definitely recommend Gibbs Wilson Contracting to any other facility and I look forward to working with you again in the future on another project.

Yours truly,

Tony Mizzi
