Re: WOHC, Etobicoke General Hospital MRI/Ultrasound Renovation

To Whom It May Concern,

It gives me great pleasure and confidence to express my appreciation to the Gibb Wilson Contracting team in the successful completion of our new MRI and Ultrasound facilities at Etobicoke General Hospital. The collaborative approach of Kul Toor, Fred Leduc and Jeremy Wilcocks enabled the completion of a complicated and demanding project without any setbacks.

Throughout the project, the team was highly professional and communicative. The team's ability to respond and to adapt to the challenges presented was key to the timely completion of the project. Their expertise in multiple aspects of the project, especially MRI specification and Infection Control, facilitated the project to proceed with ease.

I highly recommend Gibbs Wilson Contracting Limited for future projects at Etobicoke General Hospital and other healthcare institutions. I look forward to the opportunity to work with the team in our future projects.

Sincerely,

Joanne Reinhardt, MRT (R), BHA  
Manager, Diagnostic Imaging  
Etobicoke General Hospital
